## Projects

September 2024 -  
Current

### **Cafler Covers, Full-Stack Ecommerce website, made with Next.js and Sanity.io as a CMS**

E-Commerce website for car industry, made for a client, developed completely by me. This website consists of hundreds of products, filtering, sorting etc, Stripe integration for secure payments, Email marketing and campaigns using Resend.

June 2024 -  
September

### **Balkan Gross, Full-Stack Ecommerce website, with authentication, orders, and many more.**

I made this website for a Swedish client, which helped him display his product catalogue and keep track of his orders and active users, i used Clerk.js for authentication, and Sanity.io as CMS for storing products. Users can choose products and order, or export the order as PDF.

April 2024 - May

### **Massoud Cleaning, Simple HTML, CSS, JS static website.**

Made this website for a Swedish Client, where he displayed all his cleaning services, and users can book an appointment

November 2023 -  
December 2023

### **EstateX, Real estate - Cryptocurrency website**

I made this website for a company in Denmark, with a completely brand new look, and refreshed branding, this website includes a blog where the client can upload new blogs and postings.

September 2023 -  
October 2023

### **Munthes, Simple restaurant website**

I made this website with only HTML, CSS and JavaScript, its a simple website where the owner can update the menu, post their meals.

## Work Experience

August 2023-  
Current

### **Alius - Frontend Developer**

Joined Alius as an intern, which i later got a position as Frontend Developer, this gave me hands-on experience on real world projects, i developed many projects during my time here, as i have mentioned them above.
